# TRANSFORMING SENIOR LIVING:

## The Ruby Commons Story— A Story of Rejuvenation and Collaboration

Project Type  
Renovation

Care Type  
Independent Living  
Assisted Living

Completion Year  
2023

Services Provided  
Interior Design, FF&E

Nestled in the vibrant community of Brookfield, Wisconsin, Ruby Commons (formerly Heritage Place) by Capri Communities stands as a testament to the beauty of rejuvenation and the power of meaningful collaboration. This Independent and Assisted Living Community boasts a perfect blend of comfort, safety and security, providing residents with environments that enable an active and social lifestyle. The journey of turning this outdated building into a bright and modern haven involved not just a renovation, but a partnership.

### **A Partnership For Excellence: The Capri-Aptura Connection**

Ruby Commons represents a noteworthy milestone in the partnership between Capri Communities and Direct Supply® Aptura®. Amy Schoenemann, Director of Real Estate Development for Capri Communities remarked that:

“Collaborating with Aptura guarantees a seamless process. When challenges arise, I have confidence in Aptura's ability to manage them. This reliability, combined with the elevated look of Aptura's work, is why we continually choose to partner with them.

› **Amy Schoenemann,**  
Director of Real Estate Development,  
Capri Communities

Throughout their long-standing partnership, Aptura has predominantly supported Capri Communities' new construction projects. Ruby Commons presented the opportunity for the two old friends to join forces on a different type of project: a renovation.

Ruby Commons serves as a powerful demonstration of how an environment can undergo a complete reimagination without altering the bones of a building.

Designed by Direct Supply® Aptura®

## Elevating Experiences: A Vision of Comfort and Resident Engagement

Ruby Commons was presented with a unique challenge: it needed to stand out in a market surrounded by new competitors. Schoenemann had a clear vision for the renovation project. The desired outcome was not just an aesthetic facelift; it was a revitalization that positively impacted the well-being and comfort of their residents.

Amy shared that the project aimed to revitalize the once-tired, outdated appearance of the facility.

By reimagining the use of different rooms through biophilic and locally-inspired design, Aptura Head Interior Designer Rebecca Keller was able to create a series of unique boutique spaces throughout the community:

“The majority of Ruby Common's residents hold onto memories of Brookfield as an agricultural community. Inspired by the history of the community, we incorporated elements of modern design with a touch of Wisconsin supper club ambiance.

› **Rebecca Keller**, Senior Interior Designer, Direct Supply Aptura

Rebecca's design encourages social interaction and community engagement, aligning perfectly with Amy's wishes for the community refresh. The impact on daily operations was noticeable, with new activities, increased participation and purposeful use of the refreshed common spaces. Perhaps the most remarkable transformation occurred in the supper club-style lounge. What was once a vacant space has been transformed into a premier destination for card tournaments and a meeting spot for all.

Resident Jeanie S. and her dog Cooper shared how the renovations have impacted them.

“The update is very modern, the furniture is comfortable, and the accessories tie in with the artwork. We love it!

› **Jeanie S.**, Residents, Ruby Commons

*Pictured at left: Kellex Twyla Chair with Clean Out in Burch wayfarer golden hour crypton with mocha cafele finish. H-Contract Andie Chair in Kravet 31414/ 516 (body) and Burch classic navy (seat). Gabby Home Arthur Side Table #3B29P in cerused white finish. Universal Furniture Modern Marley Dining Table Top and Base available in finish shown.*

Designed by Direct Supply® Aptura®

**The Beauty of Details:  
A Resident-Centric Approach**

The attention to detail in Ruby Commons is a true testament to the care and consideration given to each aspect of every Aptura senior housing project. The project emphasizes the impact of crafting a meaningful living environment, evident in the thoughtfully designed hallways that honor local Milwaukee, Lake Geneva and northern Wisconsin landscapes.

The Atrium, the center of the community, became a shining example of how design can change the ambiance of a room. The unique 26-foot high wall covering murals and the thoughtful use of natural light transformed it into a vibrant, welcoming hub that serves as the heartbeat of Ruby Commons.

**Ruby Commons' Renovation  
Results: Increased Call Volume,  
Tours and Occupancy**

The results speak for themselves. Ruby Commons, once outdated and surrounded by newer competitors, now shines as a beacon of modernity and comfort. **The community's weekly call volume has increased from 1.2 to 11.4 calls per week and tour generation has increased from 1.2 tours to 3.2 tours per week.**

Cindy Robinson, Vice President of Sales and Marketing for Capri Communities, has seen these dramatic changes firsthand:

“ Since the renovation, inquiries have increased dramatically, which has led to increased and steady tours and subsequent deposits. In the weeks leading to the completed renovation, the community held 9-12 vacancies. Currently, the community is projected to close that gap to 7 in the next 40 days. Activity remains high and there is confidence this community **will stabilize to 94% or higher occupancy.**

› **Amy Schoenemann**, Vice President of Real Estate Development, Capri Communities

*Designed by Direct Supply® Aptura*

Any chimed in with similar sentiments, stating that Aptura is her number-one pick for new construction and renovation projects. She remarks that:

“Aptura’s senior living design is more elevated than anything I’ve seen from competition. There is a thoughtful approach and an extra level of sophistication that I don’t see in other buildings I come across. It’s in all of the little details. I am constantly getting inquiries from residents, families, and staff asking if they can buy a specific piece of furniture or artwork from throughout the senior living facility- how often do you hear that in a Senior Living community?”

Capri's recommendation of Direct Supply Aptura isn't just a professional endorsement; it's a testament to the unique blend of design, attention to detail and ongoing commitment to service that is brought to every project.

“ Wooden chairs enhance the marketability of lower-acuity settings by creating a warm, home-like ambiance. On the other hand, faux-wood metal chairs offer a practical, cost-effective choice for higher-acuity environments such as memory care and skilled nursing facilities. Their durable and stackable design ensures ultimate practicality and space-saving efficiency, making faux-wood metal chairs also perfect for activity spaces.
